

# LIFTING, POSITIONING & STACKING

## VACUUM CUPS

- Vacuum cups powerfully grip and hold material safely
- Vacuum created by cups allow easy lifting of heavy weights by either one or two cups
- Ideal for moving heavy gauge metal, marble slabs, plate glass and plastic sheet
- Extended Vacu-Lifters keep operators hands away from dangerous areas, especially used in punch press applications
- Manufactured of strengthened steel rods and oil resistant rubber cups
- Positive push-button release valve assures instant release
- 4:1 safety ratio

D. Finger Grabbers

E. 2 Finger Grabber

F. Grifter

G. Medium-Duty Vacu-Lift

H. Straight Handle Lifter-Single Cup

## HAND VACUUM CUPS MANUALLY OPERATED

Hand vacuum cups are designed to handle smooth, nonporous loads such as metal, glass, plastic etc. more effectively and more efficiently. These cups make the task of lifting much easier by allowing less awkward lift points and eliminating pinched fingers. Very easy to use - the lever grip is squeezed together when the cam levers are flipped into position and then rubber pads are securely clamped to surface by vacuum. Just flip back lever(s) to release.
